VOL. IV NO. 17-4 — CARMEL-BY-THE-SEA: TUESDAY, JUNE 9, 1931 — OFFICIAL PAPER 3c

ON PAPER WINGS

Exclusive in The Daily Carmelite
by . . .
FREDERICK O'BRIEN

THE American high-wall tariff must be torn down by the next group in power, and Russia must be dealt with freely, or a new and rebel mass movement will arise in this country. Capital is ostrichizing the cloud no bigger, now, than a haystack.

¶ ¶

Chester Rowell, the millionaire flying columnist of the San Francisco "Chronicle," says: "About the only unstandardized people we have left are the foreign colonies of our great cities, and we have beneficent uplift societies busily engaged in standardizing them, too. The D.A.R.lings are hot to alter or expel from our country all who differ from them in nativity, economics or language. Grow flat or flee, they preach. They are like the bolsheviki, only turned to the right.

¶ ¶

A Turk, Zaro Agha, one hundred fifty-seven years old, has joined a circus in London. All his life, he has reached for a bitters instead of a sweet. His testimonial about his relief from halitosis at the age of a hundred and forty-four, has made countless thousands yawn. He saw Napoleon in Egypt, read George Washington's farewell address to the army in the original wrappers, and was cured of amouritis by a gradual treatment with Annodomini, at the turn of the last century. He will sign any certificate of Simmons' bedworthiness at half the usual price.

¶ ¶

Rev. Tertius Van Dyke, eminent Eastern Presbyterian pastor, asks in the Forum: "Will the church sell out to the rich?" It always has, since the time of the high-priest, Caiaphas. Dr. van Dyke says: "The Protestant ministry (with blessed exceptions) is not composed of religious leaders but of clever guessers of "popular fashions." The Pope of the Baptist church is Rockefeller, Jr.; of the Episcopal, Morgan. Why not? The sects are organized parties for a ritual on earth and a ticket to heaven. All parties need a boss, and a rich boss is one to be proud of. Most preachers and priests are salesmen of patented, certified goods, and the rich are the best patrons of all *de luxe* dinguses.

Some Echoes of Evans-Steffens Debate

(Comments submitted at the request of The Daily Carmelite.)

EDWARD WESTON—

"Lincoln Steffens is a work of art!—and I suspect some were bothered Sunday night—just as they would be by a not too obvious painting—because imagination is required of his audience.

"Actually he is so lucid, so simple, so wise, that earnest, reasoning, analytical people who crystallize their thought and agonize in theoretical strait-jackets, believe he is trying to 'twit' them.

"But logic and analyses never reach the roots of art,—nor understand Lincoln Steffens."

CLARA N. KELLOGG—

"The chief impression left by the debate is a feeling of mental stimulation. Mr. Evans' clear statement of the accomplishments of the League, and Mr. Steffens' brilliant attack on its fundamental value both set one thinking. That the whole audience was thinking—and enjoying that experience,—was shown by the live discussion which followed the debate."

PETER FRIEDRICHSEN—

"The deduction to be made from the Evans-Steffens debate is the already obvious enough one; that the League of Nations is organised to uphold the existing order of things. Not to definitely remove causes of and eliminate wars, but merely curb and control. To eliminate or remove causes of wars would strike at the very foundations of present day organised society, namely the profit system."

EUNICE T. GRAY, *Secretary of Carmel Branch, W. I. L.*:

"The Carmel branch of the Women's International League for Peace and Freedom is grateful to Mr. Perry Evans and Mr. Lincoln Steffens for giving a vital and dramatic climax to its quiet winter's study of the League of Nations. Mr. Evans gave his audience the constructive point of view and emphasized the indisputable successes of the League; giving much valuable data in regard to its activities. Mr. Steffens, cheerful iconoclast that he is, warned us to look at it more critically. He 'debunked' Pollyana Peace very successfully, but the Women's International League will go right on working for better international understanding and it refuses to be considered as in league with the devil even if it is organized. Its members know very well that (to quote Spinoza), Peace is not absence of war, it is vigor of soul.'"

LINCOLN STEFFENS—

"Coming out from the debate Sunday night, someone summed it up in two sentences: 'People *want* to believe in Santa Claus. Let them'."

Nightly Rehearsals of "Yes, Doctor"

With the same thoroughness which made "Carmel Nights" an exceptional success last year, Elliot Durham is at work nightly with the large cast of "Yes, Doctor," opening production of the Forest Theater season with a five-night engagement starting on the thirieth of June.

Most recent addition to the cast is Wallace Doolittle of Monterey, pupil of the late Thomas Vincent Cator, and possessor of a fine tenor voice. He worked up to the finals in the Atwater-Kent radio audition contest, competing with experienced concert artists from all sections of the country. His part in "Yes, Doctor" will be his first Carmel appearance.

Ted Cator, son of the late composer, has come from San Jose to take a singing part in the production.

Only one song number from "Carmel Nights" will be repeated this year, and that by request—"The Song of Carmel."

Personalia

EDITED BY S. L. H.

On Monday, June eighth, Miss Lucile Hendricks of Shreveport, Louisana, was married to Mr. James Orrin Adams. Mr. Adams is associated with his father in the recently opened antique shop on Ocean avenue. The young couple are living at present in "Cross Trails" on Carmelo.

Peter Friedrichsen, in Carmel for the summer, has begun work on the sets for "Karl and Anna," next production of the Studio Theatre of the Golden Bough. After the beautiful set he designed and executed for "The Queen's Husband," his next creation will be looked forward to with keen anticipation by the Peninsula audiences.

Daisy Bostick appears among prize-winners in a five-thousand dollar advertising essay competition sponsored by Foster & Kleiser, San Francisco agency. More than ten thousand entries were received.

Miss Mary Cowan of the Artists' Service Division of the National Broadcasting Company in San Francisco stayed in Carmel overnight to confer with the Booking Committee of the Carmel Music Society.

G. A. Faraday, great-grand nephew of the famous English chemist and physicist, Michael Faraday, and resident secretary of the International House at Berkeley, visited Carmel over the week-end.

Miss Edith Dickinson, who will graduate from Mills College, next Friday, spent the week-end with her parents on the Point. Mrs. Dickinson plans to attend the graduation exercises.

Mrs. Clarence Shuey, Miss Sevilla Shuey, Miss Eleanor Hunt, and Hayden Shuey are leaving Pine Inn today after spending the week-end here.

Hazel Watrous motored to San Francisco yesterday for business engagements in connection with forthcoming attractions at the Gallery.

Miss Edna Owings of Berkeley, short story writer and occasional contributor to The Carmelite, is in Carmel for the summer.

Miss Evelyn Barron has been spending several days with Mrs. Lloyd Tevis in the Valley.

In a recent conversation in regard to maritime museums a gentleman from Boston was heard to remark. "Mr. Lewis Slevin is better know abroad than he is in his own home Carmel. My first interest in clipper ships and whaling vessels was awakened by a collection of fine photographs in the Marine Museum of Salem, Massachussets. They were the work of Mr. Slevin."

WHO'S WHO IN THE ART EXHIBIT

(Fifth of a Series)

M. DENEALE MORGAN, Box N, Carmel.

P. E.—Born San Francisco, Calif. Pupil of San Francisco Art Institute, and Chase.

Member: San Francisco Art Association; Carmel Club Arts and Crafts; N. A. Women P.S.; Calif. W.C.S.; West Coast Arts.

Work in: Memorial Museum, Los Angeles; Del Monte Gallery; San Francisco Art Association; "Cypress and Cliffs," University of Texas; Stanford Univ.; Univ. of Southern Calif.; "Tall Cypress," Lindsay High School; "Spring-Clouds," Salinas High School.

J. M. CULBERTSON, cor. Lincoln and Seventh, Carmel.

P., E., T.—Born Shanghai, China, May 4, 1852. Pupil of William M. Chase, Arthur W. Dow, George H. Smillie.

Member: San Francisco S. Women A; Carmel A A; Laguna Beach A A; Berkeley Lg. FA. Award: Hon. mention, Alaska Yukon Exposition, Seattle, Wash., 1909.

JAPANESE DANCER COMING

An event of great artistic significance and interest is the dancing of Motoko Hino, Japanese dancer, in the Denny-Watrous Gallery on Friday and Saturday evenings of this week, June twelfth and thirteenth.

Miss Hino belongs to the Sho-chiku Productions in Tokio, the largest moving picture corporation in Japan. She was brought to this country by the Japanese Association to teach the Japanese children the ancient classical Japanese dances, in order that the true tradition might be preserved with the American-born Japanese.

Motoko Hino began the study of the dance at the age of four, and has been for many years one of the most celebrated dancers in Japan. Her appearances in the Imperial Theatre in Tokio before capacity audiences have made her name one to conjure with, and on the twenty-sixth of this month she sails again for Japan to dance for her native people after a stay in this country of almost two years.

LEGAL NOTIFICATION

RESOLUTION OF INTENTION NO. 502

RESOLVED, that it is the intention of the Council of the City of Carmel-by-the-Sea, County of Monterey, State of California, to order the following work to be done and improvements to be made in said c y as follows, to-wit:

(A) That Mission Street, from the southerly line of Ocean Avenue to the southerly line of Eighth Avenue, including all street and alley crossings, terminations and opposite termina- ons be improved as follows:

1. By grading the roadway area of the above mentioned and described portion of Mission Street between curb lines, i. e., seventeen (17.0) feet on each side of the center line of said Street, to the subgrade and cross sections shown in the plans and specifications hereinafter mentioned and referred to.

2. By constructing monolithic hydraulic cement concrete curbs and gutters on each side of the above mentioned and described portion of Mission Street; the lines of the tops of said curbs nearest to center line of said street to be seventeen (17.0) feet on each side of said center line, and dimensions and thickness of said curbs and gutters to be as shown and delineated in the plans and specifications hereinafter mentioned and referred to.

3. By paving the roadway area of the above mentioned and described portion of Mission Street between gutters, i. e., fifteen feet and eight inches (15' 8") on each side of center line of said Mission Street, with a water bound pavement consisting of local quarried material of a character described in the plans and specifications hereinafter mentioned and referred to.

4. By constructing within the area of the above mentioned and described portion of Mission Street six (6) hydraulic cement concrete catch basins with cast iron frames and gratings at the places hereinafter mentioned, viz:

(a) Two such catch basins to be constructed along the easterly curb line of Mission Street, one at the northerly property line of Seventh Avenue and one at the northerly property line of Eighth Avenue.

(b) Two such catch basins to be constructed along the westerly curb line of Mission Street, one at the northerly property line of Seventh Avenue and one at the northerly property line of Eighth Avenue.

(c) Two such catch basins to be constructed along the westerly property line of Mission Street, one at the southerly curb line of Seventh Avenue and one at the southerly curb line of Eighth Avenue. The particular locations and dimensions of said catch basins being more fully shown in the plans and specifications hereinafter mentioned and referred to.

5. By constructing within the area of the above mentioned and described portion of Mission Street two (2) hydraulic cement concrete manholes with cast iron frames and covers at the locations hereinafter mentioned, viz:

(a) One such manhole to be constructed at the intersection of a line parallel to and twenty (20.0) feet southerly from the northerly property line of Seventh Avenue with a line parallel to and twenty (20.0) feet westerly from the easterly property line of Mission Street.

(b) One such manhole to be constructed at the intersection of a line parallel to and twenty (20.0) feet southerly from the northerly property line of Eighth Avenue with a line parallel to and twenty (20.0) feet westerly from the easterly property line of Mission Street. The particular locations and dimensions of said manholes being more fully shown in the plans and specifications hereinafter mentioned and referred to.

6. By installing within the area of the above mentioned and described portion of Mission Street six (6) full circle, galvanized, corrugated iron pipe culverts, each ten (10") inches in diameter, at the location hereinafter mentioned, viz:

(a) Three (3) such pipe culverts to be installed, one leading in a direct line from each of the hereinabove mentioned and described three (3) catch basins at the crossing of Mission Street and Seventh Avenue, to connection with the manhole at said crossing.

(b) Three (3) such pipe culverts to be installed, one leading in a direct line from each of the hereinabove mentioned and described three (3) catch basins at the crossing of Mission Street and Eighth Avenue, to connection with the manhole at said crossing. Said pipe culverts installations being more fully shown in the plans and specifications hereinafter mentioned and referred to.

7. By installing within the area of the above mentioned and described portion of Mission Street, full circle, hydraulic cement concrete storm sewer pipes of the sizes and at the locations hereinafter mentioned, viz:

(a) A line of said concrete pipe twenty-four (24") inches in diameter to be installed and laid in a direct line from a point in the easterly property line of Mission Street that is twenty (20') feet southerly from the northerly property line of Seventh Avenue, to connection with the hereinabove mentioned and described manhole at the crossing of Mission Street and Seventh Avenue.

(b) A line of said concrete pipe twenty-four (24") inches in diameter to be installed and laid in a direct line connecting the two hereinabove mentioned and described manholes, the one at the crossing of Mission Street and Seventh Avenue and the one at Mission Street and Eighth Avenue.

(c) A line of said concrete pipe thirty (30") inches in diameter to be installed and laid in a direct line from connection with the hereinabove mentioned and described manhole at the crossing of Mission Street and Eighth Avenue to a point in the southerly property line of Eighth Avenue that is twenty (20') feet westerly from the easterly property line of Mission Street.

(B) That Seventh Avenue, from the easterly property line of San Carlos Avenue to the westerly property line of Mission Street; Eighth Avenue, from the easterly property line of Dolores Street to the westerly property line of San Carlos Avenue, and Eighth Avenue from the easterly property line of San Carlos Avenue to the westerly line of Mission Street be improved as follows, to-wit:

1. By grading the roadway areas of the above mentioned and described portions of Seventh Avenue and Eighth Avenue between curb lines, i. e., seventeen (17.0) feet on each side of the center lines of said Avenues, to the subgrade and cross sections shown in the plans and specifications hereinafter mentioned and referred to.

2. By constructing monolithic, hydraulic cement concrete curbs and gutters along the northerly sides of the above mentioned and described portions of Seventh Avenue and Eighth Avenue; the lines of the tops of said curbs nearest to the center lines of said Avenues to be seventeen (17.0) feet from said center lines, and dimensions and thickness of said curbs and gutters to be as shown and delineated in the plans and specifications hereinafter mentioned and referred to.

3. By paving the roadway area of the above mentioned portions of Seventh Avenue and Eighth Avenue between gutters, i. e., fifteen feet and eight inches (15' 8") on each side of center lines of said Avenues, with a water bound pavement consisting of local quarried material of a character described in the plans and specifications hereinafter mentioned and referred to.

(C) That those portions of Seventh Avenue, Eighth Avenue and Ninth Avenue, from the easterly property line of Mission Street to the westerly property line of Junipero Avenue be improved as follows, to-wit:

1. By grading a strip of the roadway area of the above mentioned and described portions of Seventh and Eighth Avenues, twenty-four (24') feet wide, lying twelve (12') feet on each side of the center lines of said Avenues, to the subgrade and cross sections shown in the plans and specifications hereinafter mentioned and referred to.

2. By constructing within the area of the above mentioned and described portions of Seventh and Ninth Avenues two (2) hydraulic cement concrete manholes with cast iron frames and covers at the locations hereinafter mentioned, viz:

(a) One such manhole to be constructed at a point twenty (20') feet southerly from the northerly property line of Seventh Avenue and one hundred five (105.0) feet easterly from the easterly property line of Mission Street.

(b) One such manhole to be constructed at a point fifteen (15.0) feet northerly from the southerly property line of Ninth Avenue and one hundred thirteen (113.0) feet easterly from the easterly property line of Mission Street. The particular locations and dimensions of said manholes being more fully shown in the plans and specifications hereinafter mentioned and referred to.

3. By installing within the area of the above mentioned portions of Seventh Avenue and Ninth Avenue, full circle, hydraulic cement concrete storm sewer pipes of the sizes and at the locations hereinafter mentioned, viz:

(a) A line of said concrete pipe, twenty-four (24") inches in diameter to be installed and laid in a direct line from connection with the above mentioned manhole in Seventh Avenue to a point in the northerly property line of Seventh Avenue that is one hundred eighteen (118.0) feet easterly from the easterly property line of Mission Street.

(b) A line of said concrete pipe, twenty-four (24") in diameter to be installed and laid in a direct line from connection with the above mentioned manhole in Seventh Avenue to a point in the easterly property line of Mission Street, that is twenty (20') feet southerly from the northerly property line of Seventh Avenue.

(c) A line of said concrete pipe, thirty (30") inches in diameter to be installed and laid in a direct line from connection with the above mentioned manhole in Eighth Avenue to a point in the southerly property line of Ninth Avenue that is one hundred twenty-six (126.0) feet easterly from the easterly property line of Mission Street.

(d) A line of said concrete pipe thirty (30") inches in diameter to be installed and laid in a direct line from connection with the above mentioned manhole in Ninth Avenue to a point in the easterly property line of Mission Street that is fifteen (15') feet northerly from the southerly property line of said Ninth Avenue.

(D) That Mission Street, from the southerly property line of Eighth Avenue to the southerly property line of Ninth Avenue, including all street and alley crossings, terminations and opposite terminations be improved as follows:

1. By grading a strip of the roadway area of the above mentioned and described portion of Mission Street, twenty-four (24') feet wide, lying 12 feet on each side of the following described center line: Beginning at a point in the southerly property line of Eighth Avenue that is twenty (20') feet westerly from the easterly property line of Mission Street; thence southerly in a direct line one hundred (100') feet to a point twenty (20') feet westerly from easterly property line of Mission Street; thence southerly in a direct line fifty (50') feet to a point twenty-three (23') feet westerly from the easterly property line of Mission Street; thence southerly in a direct line fifty (50') feet to a point twenty (20') feet westerly from the easterly line of Mission Street; thence southerly in a direct line fifty (50') feet to a point twenty (20') feet westerly from easterly line of Mission Street; thence southerly in a direct line fifty (50') feet to a point thirty (30') feet westerly from the easterly property line of Mission Street; thence southerly in a direct line and parallel to and thirty (30') feet distant from the easterly property line of Mission Street to a point in line of center line of Ninth Avenue; thence easterly along center line of Ninth Avenue, thirty (30') feet to a point in easterly property line of Mission Street. Also a strip thirty-four (34') feet wide lying seventeen (17') feet on each side of the following described center line: Beginning at a point in the center line of Mission Street and in southerly line of Ninth Avenue produced

and running thence northerly along said center line of Mission Street thirteen (13') feet.

2. By paving the last hereinabove described twenty-four (24') and thirty-four (34') foot strip of roadway area with a water bound pavement consisting of local quarried material of a character described in the plans and specifications hereinafter mentioned and referred to.

3. By constructing within the area of the above mentioned portion of Mission Street one hydraulic cement concrete manhole with cast iron frame and cover, same to be located at a point twenty (20') feet westerly from the easterly property line of Mission Street and fifteen (15') feet northerly from the southerly property line of Ninth Avenue. The particular location and dimensions of said manhole being more fully shown in the plans and specifications hereinafter mentioned and referred to.

4. By installing within the area of the above mentioned and described portion of Mission Street, full circle, hydraulic cement concrete storm sewer pipes of the size and at the locations hereinafter mentioned, viz:

(a) A line of said concrete pipe thirty (30") inches in diameter to be installed and laid in a direct line from connection within the hereinabove mentioned manhole at the crossing of Mission Street and Ninth Avenue to a point in the southerly property line of Eighth Avenue that is twenty (20') feet westerly from the easterly property line of Mission Street.

(b) A line of said concrete pipe, thirty (30") inches in diameter to be installed and laid in a direct line from connection with the hereinabove mentioned manhole at the crossing of Mission Street and Ninth Avenue to a point in the easterly property line of Mission Street that is fifteen (15') feet northerly from the southerly property line of Ninth Avenue. The particular locations and dimensions for said concrete pipes being more fully shown in plans and specifications hereinafter mentioned and referred to.

(E) That Mission Street, from the southerly property line of Ninth Avenue to the northerly property line Tenth Avenue to be improved as follows, to-wit:

1. By grading a strip of the roadway area of the above mentioned and described portion of Mission Street between curb lines, i.e., seventeen (17') feet on each side of the center line of said Mission Street, to the subgrade and cross sections shown in the plans and specifications hereinafter mentioned and referred to.

2. By constructing monolithic, hydraulic cement concrete curb and gutter along the westerly side of the hereinabove mentioned portion of Mission Street; the line of the top of said curb nearest to the center line of the said Mission Street to be seventeen (17.0) feet from said center line and dimensions and thickness of said curb and gutter to be as shown and delineated in the plans and specifications hereafter mentioned and referred to.

3. By paving the roadway area of the above mentioned portion of Mission Street between gutters, i.e., fifteen feet and eight inches (15' 8") on each side of the center line of said Mission Street, with a water bound pavement consisting of local quarried material of a character described in the plans and specifications hereinafter mentioned and referred to.

NOTICE IS HEREBY GIVEN that the grades of the hereinabove mentioned and described streets have been modified, changed and established by the plans and specifications and the detailed drawings attached thereto, adopted by the Council of the City of Carmel-by-the-Sea on the 27th day of May, 1931, and as so modified, changed and established shall be the grade at (to) which said work and improvement on said streets shall be done and made, to which said plans and specifications and detailed drawings reference is hereby made for a full and particular description of said grades, so modified, changed and established as aforesaid, the same being on file in the office of the Clerk of the said City of Carmel-by-the-Sea.

All of the above described work and improvement to be done to conform to and with the grade as modified, changed and established by the plans and specifications, as aforesaid, and to the official line, and in accordance with the plans and specifications adopted therefor by the Council of said City of Carmel-by-the-Sea on the 27th day of May, 1931, which said plans and specifications are now on file in the office of the Clerk of said City of Carmel-by-the-Sea, and reference is hereby made to the same for a full and complete description of the said work and improvement and the several locations at which the same is to be made, for the modified, changed and established grades, and for further particulars.

There is excepted from the said work and improvement any and all such work already done to the official line and to the above mentioned modified, changed and established grade, and there is excluded therefrom any duplication of such work at the same place, due to the re-crossing of lines in the foregoing description of said work and improvements, it being the intention to describe only one improvement of the same kind or class at any one place.

AND WHEREAS, said contemplated work and improvement in the opinion of the Council of the City of Carmel-by-the-Sea, is of more than local or ordinary public benefit and will affect and benefit the lands and district hereinafter mentioned, which said district is hereby declared to be the district benefitted by the said work and improvement; that therefore the entire costs and expenses of said work and improvement shall be and are hereby made chargeable against and shall be assessed upon said lands and district, which said district is situate wihin the corporate limit of the City of Carmel-by-the-Sea, County of Monterey, State of California, and the said district is shown, described and delineated on that certain map or plat designated and entitled "Plat Showing Assessment District Under Resolution of Intention No. 502," which said map or plat was adopted and appproved by the Council of the City of Carmel-by-the-Sea on the said 27th day of May, 1931, and the same is now on file in the office of the City Clerk of the City of Carmel-by-the-Sea, to which said map or plat reference is hereby made for a particular description and an accurate location of the said assessment district and is made a part hereof.

The said Council of the City of Carmel-by-the-Sea further declares that all public streets, avenues, roads and public ways, contained within the district shown and described on the map or plat above mentioned, the same being in use in the performance of a public function, to-wit: as public streets and avenues, shall be omitted from the assessment hereafter to be made to cover the costs and expenses of said work and improvement.

And it is further ordered and notice is hereby given, that serial bonds to represent the unpaid assessments and bear interest at the rate of six per cent per annum, shall be issued hereunder in the manner provided by the Improvment Bond Act of 1915 as amended, the last installment of which said bonds shall mature nine years from the second day of July next succeeding ten months from their date. Assessments against the property of the City of Carmel-by-the-Sea will be paid from monies in the general fund of said City.

This Resolution of Intention is adopted under and pursuant to the provisions of those certain acts of the Legislature of the State of California designated and entitled, respectively, The Improvement Act of 1911, as amended, and the Improvement Bond Act of 1915, as amended, and further proceedings hereunder shall be taken and had in accordance with the provisions of said acts.

AND NOTICE IS HEREBY GIVEN that on Wednesday, the 17th day of June, 1931, at the hour of eight o'clock p. m., of said day at the chamber or meeting place of said Council in the City Hall in the City of Carmel-by-the-Sea, are hereby and have been fixed as the time and place when and where any and all persons having any objections to the proposed work and improvement above described, may appear before said Council and show cause why said work and improvement should not be carried out in accordance with this Resolution of Intention.

Further notice is hereby given that any property owner whose property is to be assessed to pay the costs and expenses of the above described work and improvement may, at the time and place fixed herein for hearing protests against the said work and improvement, to-wit: At eight o'clock p.m. on the 17th day of June, 1931, appear before said Council and make objections to the modified, changed and established grade, as above set forth and to which said work and improvement is to be done and made.

The (Daily) Carmelite, a newspaper published and circulated in said City at least once each week, is hereby designated as the newspaper in which this resolution shall be published in the manner and form required by law. The Superintendent of Streets of said City is hereby directed to post notices of the passage of this Resolution of Intention in the manner and form required by law. The Clerk of said City is hereby directed to cause this Resolution of Intention to be published twice in said newspaper in the manner required by law.

PASSED AND ADOPTED this 27th day of May, 1931, by the following vote:

AYES: Councilmen: Heron, Kellogg, Jordan.
NOES: Councilmen: None.
ABSENT: Councilmen: Rockwell, Bonham.

THE LOCAL OBSERVER

(*Contributed*)

A short time ago Frederick O'Brien in The Carmelite published a more or less interesting estimate and designation of several well-known columnists, including Chester Rowell, Arthur Brisbane, Double-O McIngyre, John D. Barry, Franklin P. Adams, and Walter Winchell. And he added: "Column writers are the court fools . . . " You see he did not mention the author of "On Paper Wings." *He's no fool.*

† †

Except for the personalities of the men taking part, the recent League of Nations debate was something of a flop. Both men could no doubt learn something from Chester Rowell.

† †

Again, it may be well to call attention to the lack of sufficient exits in places of public gathering in Carmel. Under present conditions we may have a dreadful tragedy.

† †

Oiled streets have their disadvantages. This town has been over-run lately by oily-tongued bond salesmen, subscription agents and aeroplane promoters. The lubricant is doubling in "brass."

† †

Says Frederic Burt in his Carmel Art Exhibit article: "C. Chapel Judson makes Castroville just a bit fuzzy." I call that a deserved compliment.

† †

Carmel surely has gone bolshevik—not politically (?) —commercially. Witness the various styles of smocks worn by our sleek-haired grocery clerks.

† †

Clean-up of upper Ocean avenue vacant lots should be ordered by the City Trustees. Must we endure this civic eyesore?

("The Local Observer" is a Carmel resident of long standing who finds in this column an outlet for random thoughts suggested by the daily round. The same outlet is open to anyone who has anything to say.—ED.)

Kino Bay Notes

By PORTER EMERSON BROWNE

Very Exclusive to The Daily Carmelite

Alberto Hofer was a guest last week. Alberto is always welcome.

* * *

Unemployment statistics are all scrambled up again. The Seris have gone to work. That is if you can call work turning over on their helpless backs nice mother turtles who have gone up on the beach to lay eggs.

* * *

We have decided to close, for a time, the Kino Bay Broadcasting Station, WOOF, and as well, the network consisting of Agua Seca, Cariso and Providencia—or was it Santa Theresa? With the Seris away, and Yates Holmes in the States, our talent is cut down. Also there are on the market now more different kinds of tooth-paste than there are teeth.

* * *

This has been a bit of an off week in animal experimentation. Professor Bachol's attempt to cross a sea turtle with a pelican was not a pronounced success. The wings were too small to enable it to fly successfully while the feathers impeded its swimming. Professor Bachol now is at work trying to cross the cook with an octopus. Think what a cook with eight hands could do! Professor Sidebottom is trying to cross his 1922 Hupmobile with a Rolls Royce so he can get into Hermosillo and back the same week.

* * *

A party headed by a Los Angeles journalist, Senor Valades, spent several days here. Senor Valades is a special correspondent for a chain of Mexican language papers. He was especially interested in finding the burial place of Lola Casanova. Lola, it seems, was of a party that was shipwrecked on Tiburon about a hundred years ago. Captured by the Seris, she was made the bride of the king, Coyote Iguana. At first despondent, the birth of a son gave her new interest in life. Her father and mother, who had made their way to Hermosillo, found her and begged her to come back. But she refused. With body dyed the color of her tribe, and with painted face, she remained queen to her death. I have seen, among the Seris, one woman of singularly lovely body and face; with a fine carriage and a splendid dignity. She, they tell me, is the grand daughter of Lola Casanova, of Old Spain, and Coyote Iguana, of Tiburon.

MERLE ARMITAGE, IMPRESARIO TO SPEAK IN CARMEL

Merle Armitage, who for more than twenty years has been managing operatic organizations, ballets, and stars of the concert world in their national tours, will speak at the Denny-Watrous Gallery on the evening of June twentieth on "The Impresario Racket."

His experiences in managing the tempestuous Russian Grand Opera Company, the Scotti Grand Opera Company, the Beggars Opera from London; the Diaghieff Ballet, Isadora Duncan, Anna Pavlowa, and such artists as Yvette Guilbert, John McCormack, Galli Curci, Mary Garden, and the managerial manipulations which, added to their own outstanding abilities, made them world famous, constitutes a fascinating and romantic tale.

Mr. Armitage is enjoying his first vacation in nearly twenty-five years. His availability for this talk came about through his lending his collection of lithographs, etchings, drawings and wood-blocks to the Denny-Watrous Gallery. It is said to be one of the finest and most representative groups of prints on the Coast.

If you own a STEINWAY
Or a good piano of some other make!
The makers of this famous instrument have a message for you: "Your piano should be tuned at least three times each year . . . . ."
"The tendency of all pianos is to become more brilliant with use. If your piano should become too bright in tone, regulating will restore the desired degree of softness."
We are servicing many STEINWAYS on the Peninsula, and a number have been rebuilt. ¶This exacting service is available to everyone. ¶Take care of your piano and you'll never regret it.
